able-stik® color-coded, pressure-sensitive File Folder Labels

8 DISTINCTIVE COLOR CODES

(R) Red	(Y) Yellow
(G) Green	(N) Brown
(B) Blue	(W) White
(O) Orange	(P) Purple

ABLE-STIK pressure-sensitive file folder labels apply at a touch, without water, to most smooth surfaces; are the fastest and easiest way for you to improve the organization and efficiency of your filing.

They are exactly spaced on continuous fanfolded sheets for high speed typing or hand printing. Easy coding and file identification is assured. There are 7 different color borders to choose, each packaged in easy-to-handle boxes of 1,000. Also, special precision-cut pinfeed File Labels for Data Processing use.

The cost? Less than ¼c each! An amount that is repaid in time saved, whenever you mark or retrieve a folder!

EFFICIENCY

speed filing!

ADVANTAGES

- No moistening, split-second application
- Color coding for attractive identification
- Flat packs for efficiency: easy handling, compact storage
- Accurate typewriter spacing
- Fit every type of filing system including new vertical files
- For desk trays
- As Bin Markers
- Drawer and Cabinet Markers

PRESSURE-SENSITIVE EASY-PEEL ADVANTAGES

EASY-PEEL, the latex impregnated stock especially developed for magnetic tape reels and other computer hardware. Labels stay put on spinning reels, but come off cleanly in one piece without tearing, when re-labeling is required. The unique combination of paper and adhesive assures easy removal and minimum residue.

EASY-PEEL meets the specialized requirements of every kind of magnetic storage: tape reels, disc packs, and all other units whether plastic or metal. Far surpasses ordinary "removable" adhesive.

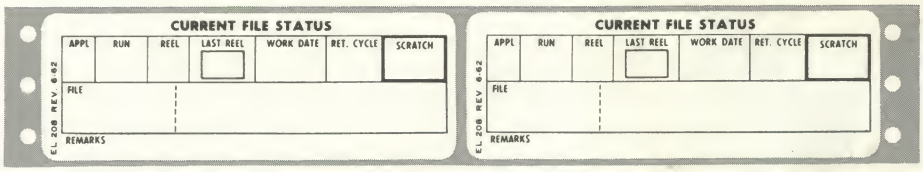
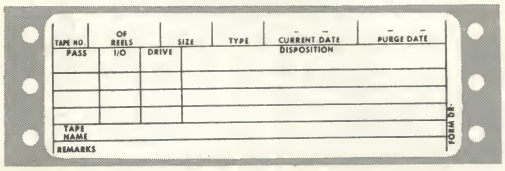
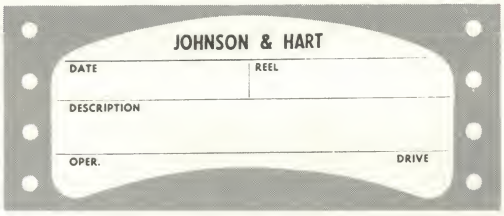
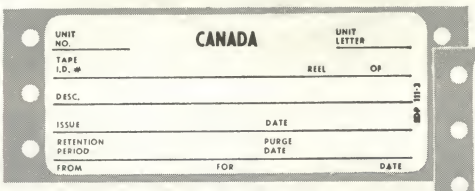
EXAMPLES OF IMPRINTED able-stik® STOCK LABELS

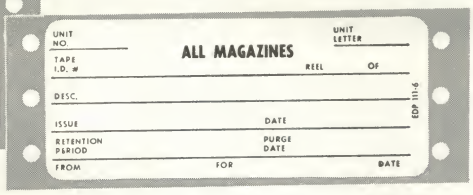
EASY-PEEL TAPE REEL LABELS *CUSTOM IMPRINTED* AT LOW COST

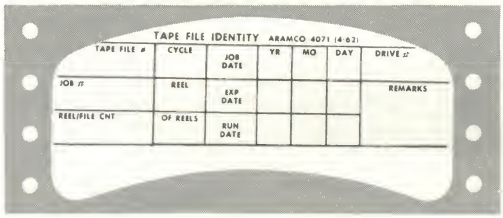


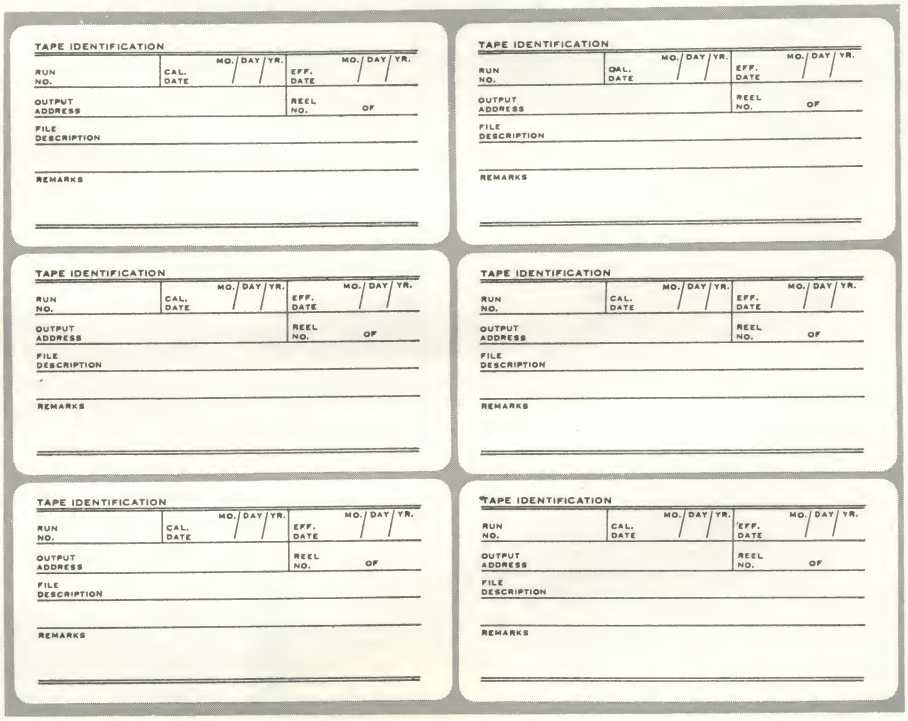


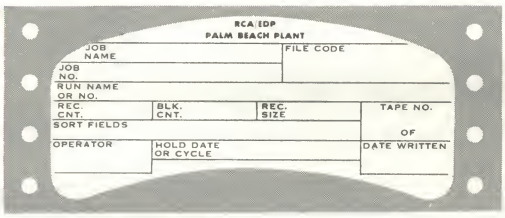


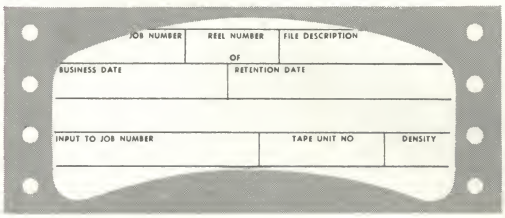








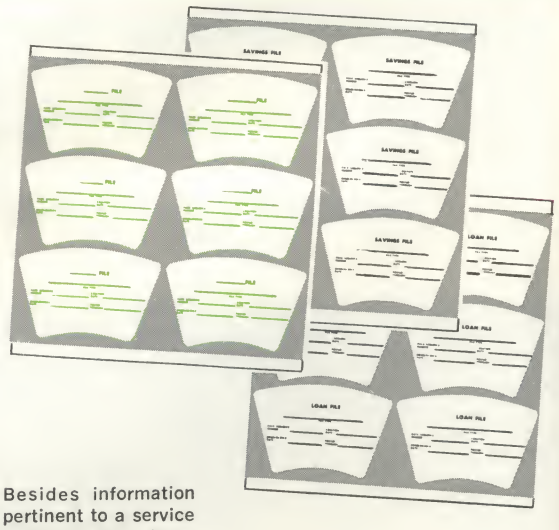




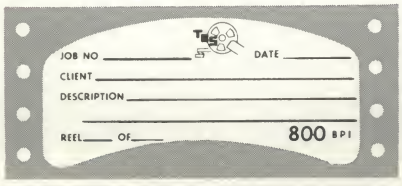
CUSTOM DESIGN SPECIAL IMPRINT

able-stik® TAPE-REEL LABEL IDEA FILE

Curved label at right was designed to fit magnetic disc and other storage units. Savings and Loan company uses colored ink for quick selection: blue for Savings File, Black for Loan File, Red for miscellaneous. Note strip at top and bottom of sheet for feeding through office duplicator when on-premises printing of format is preferred.

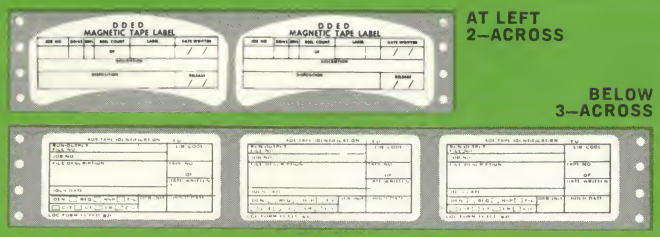


Many imprinted stock labels, as well as more individualized custom tape reel labels, embody features such as color, slits, Multi-label construction and design elements which increase utility of the label. Examples are shown here and on the next page.



Besides information pertinent to a service center, label shows 800 Bits Per Inch tape density.

able-stik® CUSTOM TAPE REEL LABEL IDEA FILE



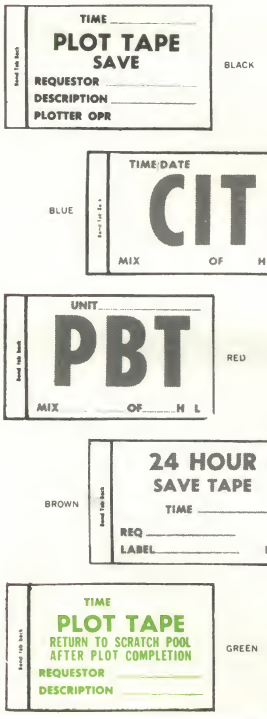
HIGH SPEED PRINT-OUT

WITH MULTIPLE REEL LABELS

Curved T-42P and rectangular labels at left illustrate multiple mounting for programmed computer print-out. After receiving machine entries, labels can be placed on any number of similar reels, on associated reel containers, on reel library shelves, or on forms printed as output from the reel.

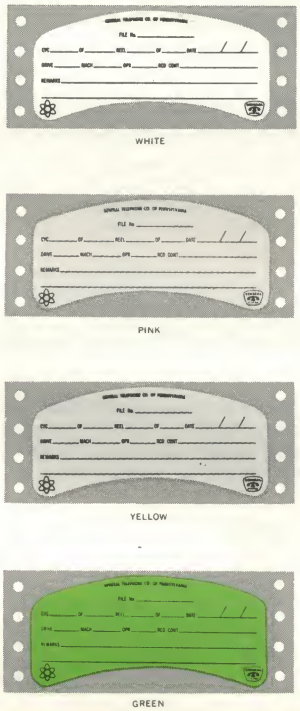
COPY CODED WITH COLORED INKS

Cut single labels below are stock T-21 size, printed to customer's copy. Five formats, five colors of ink.



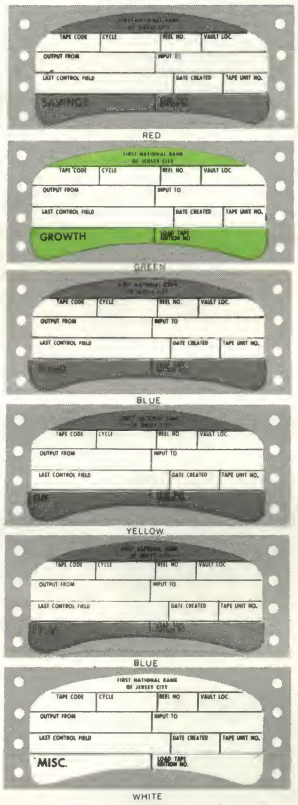
COLOR CODED BACKGROUNDS

Use of solid color background without change of format is illustrated by pinfeed T-42P labels below.



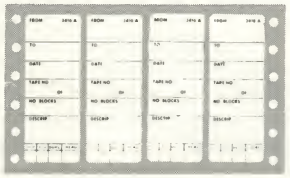
COLOR STRIPES

Some users of the T-42P specify printing in bold colors of curved portion at top and bottom. This affords easy and quick identification of reels used for different accounting functions.

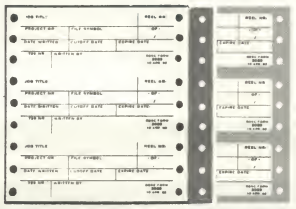


ADDED EFFICIENCY WITH COMBINATION TAPE REEL LABELS

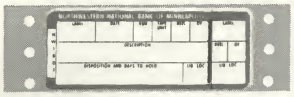
In addition to side by side mounting of labels as shown at top of page, here are other ideas that meet the need for multiple labels.



Four labels printed out in same series of machine cycles.



Part 1 of this two-part carbon interleaved set is bond paper which, after imprinting on computer run, is used for record keeping. Part 2 is label for identifying tape reel.



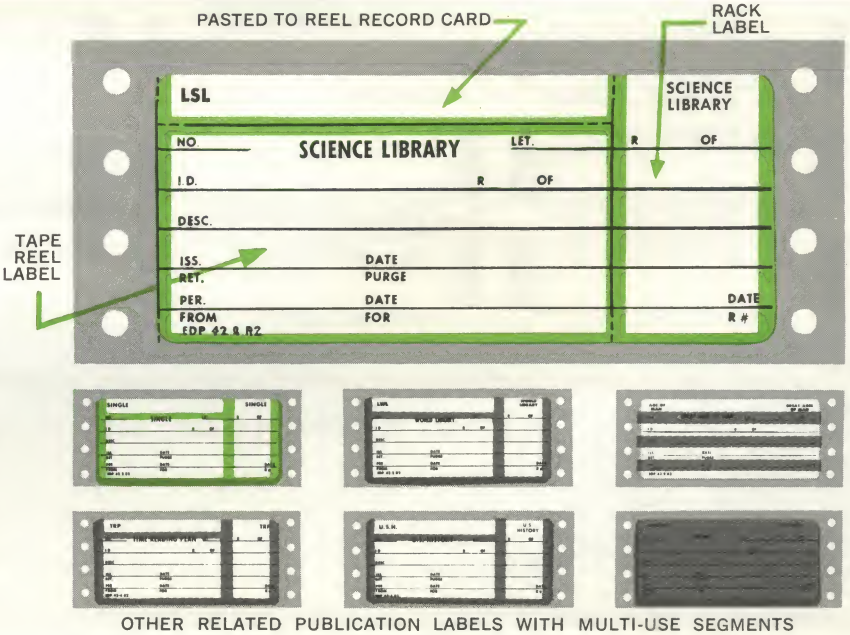
Larger section used for tape reel. Small portion at right of slit placed on storage shelf.

MULTIPLE-USE SEGMENTS

PROVIDE EXTRA UTILITY

A large publisher uses a unique system which not only identifies by color a number of tape reel categories, but by an ingenious use of Able-Stik's "perf-a-slit" construction, provides for multiple use of label segments.

Label is printed out from punched card input. After tape is composed, entire label is removed in one piece from backer and placed on the reel, which is then sent to reel library. Taking advantage of the Easy-Peel removability feature, the librarian lifts right hand section and top horizontal section, utilizing "perf-a-slit" feature for easy separation. Horizontal strip is posted to a Reel Record Card, formerly done by handwriting. Vertical section goes on face of storage rack (instead of former handwritten card placed in slots). Large portion remains on reel. Color coding is consistent on rack, reel and record card.



21 BRITE-STIK LABELS (EASY-PEEL)

FOR INSTANT IDENTIFICATION OF MAGNETIC TAPES, IDEAL TO FLASH WARNINGS AND OTHER QUICK SIGNALS.

These bright vivid colors instantly flag tape reels that require special handling. Supplied as illustrated, 4 on a strip, 200 to an envelope pack.
